

ECE-COHORT01 · MAY 2026 INTAKE

Learn to Build & Grow.

Front-End Development + Business Development Skills, powered by
the circular economy.

2wks Frontend Intensive

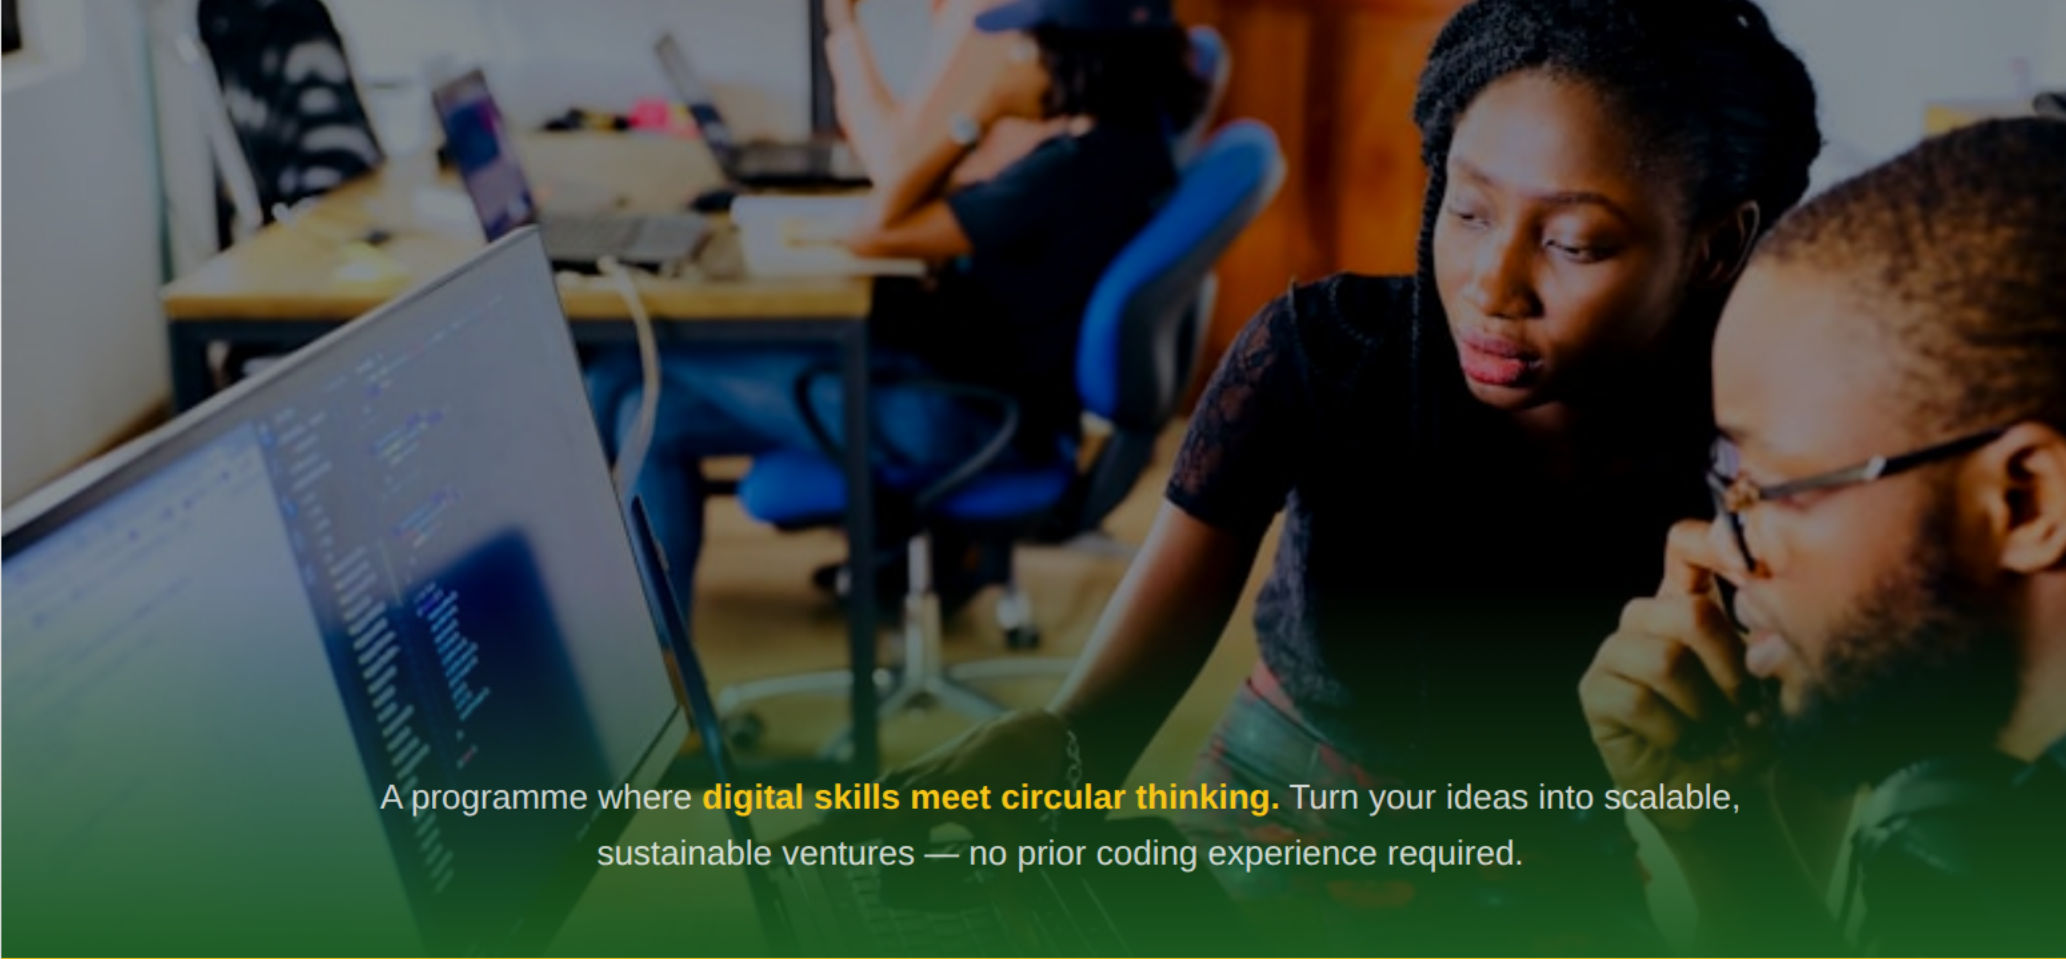

BDS Training

Incubation Eligible

2.5 Months Total

Hosted at:

Circular Innovation Hub · 233 Owashika Rd, Nairobi

A programme where **digital skills meet circular thinking**. Turn your ideas into scalable, sustainable ventures — no prior coding experience required.

Who We Are

Circular Innovation Hub (CIH)

CIH is a community-centred innovation space dedicated to building the next generation of circular economy leaders. We connect entrepreneurs, youth, and change-makers with the skills, networks, and tools to design sustainable, resource-efficient ventures.

Contact: info@cuircularinnovation.com

Computers For Schools Kenya (CFSK) – Institute of ICT

CFSK Institute of ICT is a registered technical training institution bridging the digital divide in Kenya. As the academic facilitator for this programme, CFSK brings certified curriculum delivery, equipment access, and hands-on ICT training expertise.

Contact: exams@cfsk.org

THE PROGRAMME

Entrepreneurship of **Circular Economy** (ECE)

The ECE Programme is CIH's flagship initiative, an integrated, hands-on curriculum that combines digital skills with business development through the lens of the circular economy. This brochure covers **ECE-COHORT01**, our first intake launching May 2026.

What is the Circular Economy?

A circular economy keeps resources in use for as long as possible, reducing waste, regenerating natural systems, and creating new economic value. At CIH, we train the innovators who will design and build these systems using digital tools and entrepreneurial thinking.

- **Digital Skills** — Build real web applications using modern frontend technologies.
- **Business Skills** — Learn to pitch, sell, and build sustainable ventures.
- **Circular Mindset** — Design solutions that prioritise resource efficiency and impact.
- **Incubation Pathway** — Top graduates are eligible for CIH incubation support.

Why Choose This Programme?

Integrated Learning

Unique combination of frontend dev and business development skills, learn to build the product AND grow the business around it.

Circular Economy Focus

Every project, case study, and capstone is grounded in sustainability and resource efficiency, skills employers and investors want.

Flexible Delivery

Hybrid model, not fully in-person. Balance your schedule while getting real hands-on experience both online and at the hub.

Incubation Eligible

After succeeding in the prototyping phase, standout students are eligible to be incubated at CIH, turning their ideas into real ventures.

Community & Mentorship

Join a network of innovators, mentors, and fellow learners at the Circular Innovation Hub ecosystem.

Certified Curriculum

Programme delivered through CFSK Institute of ICT, a registered technical training institution with recognised certification.

IDEAL CANDIDATES

Who Is This Programme For?

High School & University Graduates

Looking to gain practical, job-ready digital and business skills.

Women & Youth

We actively welcome women and young people to close the digital gender gap.

Entrepreneurs & Innovators

Those with business ideas who want to build digital products around them.

Career Changers

No prior coding experience required, just curiosity and commitment.

No prior coding experience needed. If you can use a smartphone or browser, you have everything it takes to start.

Programme Overview

ECE-COHORT01 runs for **2.5 months (approx. 10 weeks)**. You may enrol in one track or both. Courses can be taken individually or combined.

Programme Timeline

Combined track total: **~2.5 months** | Individual tracks can be taken separately

Track A — Frontend Dev

2wks intensive. HTML, CSS, JS, React, deployment. Standalone or as part of the combined track.

Track B — Business Dev

5wks BDS programme. Sales, proposals, market research, personal branding, entrepreneurship.

Track C — Combined

Both tracks together. The full circular innovator experience — digital + business + pitching.

ENTRY REQUIREMENTS

What You Need to Join

A Laptop (Core i5+, 4GB+ RAM)

The most important requirement.

Internet Access

Reliable internet for online components of the hybrid delivery.

High School Certificate (or equivalent)

Basic secondary education. University students and graduates welcome.

Basic English Proficiency

Spoken and written English used throughout the programme.

Location: 233 Owashika Rd, Nairobi | Hybrid delivery (in-person + online)

Earn a Certificate of Completion from CFSK Institute + CIH

Frontend Development Curriculum

From zero to deploying a real web application in 2 wks. Each phase builds on the last, by the end, you will have a live, working app solving a circular economy challenge.

1 Foundations of the Web — HTML & CSS

- **HTML5** — Semantic markup to structure web pages meaningfully.
- **CSS3** — Styling with modern Flexbox and CSS Grid layouts.
- **Responsive Design** — Tailwind CSS framework for all-device compatibility.

2 JavaScript & Logic — The Engine

- **Core JS** — DOM manipulation, event handling, basic interactivity.
- **Advanced JS (ES6+)** — Objects, async programming, Fetch API, clean code.
- **Data Structures** — Arrays, Hash maps, and basic algorithms.

3 Modern Workflow & Version Control

- **Git & GitHub** — Code history ("save points"), collaboration on repositories.
- **The Terminal** — CLI comfort and Linux foundations.
- **Tooling** — VS Code, Node.js, and NPM professional environment setup.

4 React JS Mastery

- **Vite** — 2026 industry-standard build tool for high-speed development.
- **Fundamentals** — JSX, functional components, and Props.
- **State Management** — React Hooks (useState, useEffect) for dynamic data.

5 Deployment & Capstone Project

- **Hosting** — Deploy to Vercel, Render, or Netlify, live on the internet.
- **Final Project** — Build and deploy an end-to-end web app addressing a real circular economy challenge.

 **Outcome:** A live, deployed web application in your portfolio — proof of your skills for employers, clients, or investors.

Business Development Skills (BDS)

The BDS track equips you with the entrepreneurial tools to build, pitch, and grow a circular economy venture. Learn from practitioners, create real deliverables, and graduate with a business toolkit.

1 Sales & Lead Generation

Understand your customer, build a pipeline, and convert interest into paying clients. Practical tools for both digital and in-person sales.

2 Proposal Writing

Craft winning proposals and business documents. Learn to communicate value clearly to clients, partners, and funders.

3 Market Research

Identify market gaps, validate demand, and understand the competitive landscape, especially in circular economy sectors.

4 Personal Branding

Build your professional identity online and offline. LinkedIn, portfolio, and storytelling for entrepreneurs and job-seekers alike.

5 Entrepreneurship & Business Modelling

Develop circular business models. From ideation to lean canvas, learn to structure a venture that creates lasting value.

6 Circular Mindset & Sustainability

Apply circular economy principles to your business model, prioritising waste reduction, resource loops, and regenerative value creation.

Pitch Prep & Demo Day (Final 2 Days)

The programme culminates in a live Demo Day. You will pitch your product or venture idea to a panel of mentors, investors, and CIH partners. Top performers enter the CIH incubation pipeline.

The **Combined Track** — Build & Grow

For learners who want it all, the technical skills to build digital products AND the business skills to take them to market. The combined track delivers both in **2.5 months**, culminating in a live Demo Day pitch.

Combined Track Journey (10 Weeks)

Weeks 1–2 — Frontend Development Intensive (2wks)

HTML · CSS · JavaScript · React JS · Git & GitHub · Cloud Deployment. Build a live circular economy web app.

Weeks 3–8 — Business Development Skills

Sales · Proposal Writing · Market Research · Personal Branding · Circular Business Modelling.

Weeks 9–10 — Pitch Prep & Demo Day

Refine your product, practice your pitch, and present to the CIH panel. Incubation eligibility begins here.

What you build

A live deployed web application solving a circular economy problem, plus a full business plan around it.

How you present

A 5-minute Demo Day pitch to a live panel, backed by your working prototype and market research.

What comes next

Top graduates enter the CIH incubation pipeline, mentorship, network, and resources to scale your venture.

Fees & Payment Options

Flexible payment plans are available for all tracks. You choose how and when you pay, we keep it manageable so financial constraints don't stop you from learning.

Track A Frontend Development	Track B Business Dev Skills	Track C Combined Track
KSh 70,000 Full upfront payment	KSh 60,000 Full upfront payment	KSh 130,000 Full upfront payment
✓ 2wks intensive programme ✓ HTML · CSS · JS · React · Deployment	Sales · Proposals · Branding · BizDev	✓ Full 2.5-month programme ✓ Frontend + BDS + Demo Day ✓ Incubation eligibility included
Instalment Plan ✓ KSh 36,000 — Week 1 (Day 1–5) ✓ KSh 36,000 — Week 2 (Day 6–10) Two equal payments within 2wks period.	Instalment Plan ✓ KSh 20,000 — Week 1 ✓ KSh 21,000 — Week 2 ✓ KSh 21,000 — Week 3 (before end) Three equal payments over the first three weeks.	Instalment Plan Instalment details to be confirmed. Contact us to discuss a payment plan that works for you.
